London, Saturday, March 24.—Copyright, 1900, by the New York Herald Company.—With absolute painless, the criminal galloped up and down for three days out of the past six—they have been down within during hours and made life out of death misery.

People talk more of the Queen's visit to Ireland than of the war. Her Majesty, her son, I am told by a member of the court, is delighted by the prospect of the journal and takes the view that this is an auspicious and happy moment to bridge over the gap which so long has separated the two countries.

Her Majesty knows the definition that the three-legged shrimps are emblematic of love, war and victory, but there is a rare shamrock with four leaves, the fourth leaf meaning beauty. The Queen hopes that the Irish will speedily adopt the four-leaved species.

The coming man, Mr. Lawrence Cowen, attacks him fiercely.

He says that "Laddie" is a sham and a fraud, without a conscience of any kind, and that all his professions of interest in public purity are the worst kind of pretense, made only for purposes of gain.

I saw Mr. Cowen yesterday, and found him a most remarkable man, sincerely a fraud, without a conscience of any kind, and that all his professions of interest in public purity are the worst kind of pretense, made only for purposes of gain.

The reason why he is a very repre-

spective Englishman, who comes from County Clare, and known Dublin well, and he is strong of this opinion that the Queen will meet with the heartiest of receptions.

Mounting the Duke of Connaught is making friends very fast. His position, which Lord Roberts held, is that of Commandant-in-Chief.

It is really owing to the war that the Queen goes to Ireland, for had not Lord Roberts gone to the front the Duke would have gone to Ireland, and the Queen goes entirely on account of the Duke.

Mr. Cowen, the most popular member of the royal family. His popularity among the soldiers is only equaled by that of "Laddie."

He is democratic, but dignified, a hard worker, and so keen a soldier that people say he was a thousand paces before he was allowed to go so far as desired, to go to the top.

As a soldier he stands high. In fact he is a soldier, and when he was confronted by General Butler, he firmly maintained his innocence.

"Because," replied Mr. Cowen, "I am the only man who can do it. I have the same politics as he has, and I have the same opinion as he has on the Boer-Deutsch question, and I don't believe the Boer-Deutsch article in the Times.

I am entirely innocent myself. Besides, as the Article Club, I attack Mr. Labouchere from purely political motives."

"I propose to force him out of Parliament and cause him to give up Truth."

"Of late, owing to his attitude regarding the Boer-Deutsch article, that party with so many as little Engunders, he is going in a fair way to destroying it entirely."

"I myself am going to stand for Parliament, but I don't want it said that I am the same party as he has, and I have the same opinion as he has on the Boer-Deutsch question, and I don't believe the Boer-Deutsch article in the Times.
